RATES (per bird):

Feather Sexing 1 - 9 birds	NZ\$19 each	Blood Sexing 1 - 9 birds	NZ\$21 each
Feather Sexing 10+	NZ\$18 each	Blood Sexing 10+	NZ\$18 each
Results in 48 hours (blood & Feather)	\$3 each		

PAYMENT OPTIONS:

Cheque Money order
 Visa MasterCard

Card Number : _____ / _____ / _____ / _____ Expiry Date: ____ / ____

Name on Card: _____ Signed: _____

HOW TO TAKE SAMPLES

Feather:

Label a small envelope with the identification or name of the bird and copy that information in the form (above). Pluck 2 or 3 normal feathers, place in the labeled envelope or zip-lock plastic bag and send them with a completed order form to the address shown above. Feathers should be approximately 4 - 10cm long. If the feather is a blood feather, only take this single feather and allow to dry before putting into a plastic bag.

Blood:

Blood kits are free upon request, or you may use a small strip of clean card to blot the blood sample on.
 Label one end of the blood card with the bird's identification, and copy it onto the form (above). Restrain the bird with a firm but gentle hold. Clip off the last quarter to third of the toenail. Wait for a drop of blood to appear. If none comes, clip back a tiny bit more and wait again for blood to appear. Once you have blood touch the nail to one end of the paper. Make sure the bleeding has stopped before returning the bird to its cage. Allow the blood to dry for 10 minutes before placing it into the zip-lock plastic bag. Ensure to wipe clean the nail clippers between birds.

Blood Alternative method:

The medial metatarsal vein (leg) can be pricked by a pin or needle and allow a drop of blood to form, before touching the drop to the labeled blood card. Only one drop is required. Clean thoroughly or replace the pin between birds.

Mail or deliver samples to:

DNA SOLUTIONS
 4 Eastgate Crt. WANTIRNA VIC 3152 AUSTRALIA
 Tel: 0800-362-8378

Results take 3-5 business days. All results will be accompanied by a results certificate.
